

**The North Carolina Museums Council and the
South Carolina Federation of Museums
announce their combined annual conference
*Beyond Borders: Creative Collaborations in the
Carolinas* March 4 - 6, 2009**

**There will be special programming for Graduate and Undergraduate students in
Museum Studies, Public History, or similar disciplines including a Student Poster Session.**

Call for Poster Session Proposals:

The NCMC Student Affairs Committee seeks proposals for poster sessions from undergraduate and graduate students that explore the theme *Beyond Borders: Creative Collaborations in the Carolinas*. Poster sessions can showcase work accomplished in the last year through internships or paid positions within the museum field.

What is a poster session:

A poster session is a short presentation that can be given several times during a session. As others have said, think "Science Fair" for the museum world. As a presenter, you will be stationed at a table with your visuals and need to speak to interested conference attendees, some of whom may stay to listen to your short presentation while others may just look and listen for a few minutes and move on.

How to submit a proposal:

Poster Session Proposals should be submitted via email to students@ncmuseums.org and should include the information listed below:

- Student contact information
- Undergraduate/Graduate School Affiliation
- Description of proposed topic and session (500 words or less)
- Description of proposed visual aids
- Session Summary for conference brochure (30 words or less)

By submitting a Poster Session Proposal, you agree to:

- Bring copies of a session outline to distribute to session attendees
- Provide handouts and/or session outline in electronic form to the conference organizers for later posting on NCMC Student Affairs site: <http://www.ncmuseums.org/ncmc/students/students.html>

THE DEADLINE for submissions for Poster Session Proposals is January 16, 2009. Proposals will only be accepted via e-mail at students@ncmuseums.org.

If you have any questions, or would like to discuss an idea for a Poster Session, please contact Peter Koch and Sarah Cuninghame by e-mail at students@ncmuseums.org
